

Dr. Ali Mohammad Khuraibet

Title: Associate Professor

Affiliation: The Public Authority for Applied Education & Training

E-mail: Khuraibet@btinternet.com

Trainer Biography:

My name is Dr. Ali M. Khuraibet, I am an Associate Professor at the Environmental Health Department, College of Health Sciences, PAAET. I worked very successfully in research and academic institutions, POWs organizations and with the private sector. My environmental consultancy career led me to provide scientific environmental services and to cooperate with major international companies, major governmental organizations and major local engineering companies. My passion for the environment and sustainability made me carry-out many environmental campaigns, organize Earth Days activities, produce environmental documentaries and be present and travel to covering the environmental and health impacts of Kuwait Liberation War (1990-1991), Iraq Liberation War (2003) and Lebanon War (2006).

My professional career allowed me to work with top decision makers. I was asked by the Ex-Prime Minister of UK team, Mr. Tony Blair, to assist him in his Report for Kuwait: "Vision 2030/35". I was also asked to accompany him for one full day in a helicopter flight and write an environmental report for his study.

I was awarded significant environmental awards for my role in protecting Kuwait's environment from major Kuwaiti academics and government organizations such as Kuwait University and Kuwait Oil Company.

Workshop Title: Work Incident Investigation

Title:

Abstract:

Investigating a worksite incident- a fatality, injury, illness, or close call- provides employers and workers the opportunity to identify hazards in their operations and shortcomings in their safety and health programs. Most importantly, it enables employers and workers to identify and implement the corrective actions necessary to prevent future incidents.

Incident investigations that focus on identifying and correcting root causes, not on finding fault or blame, also improve workplace morale and increase productivity, by demonstrating an employer's commitment to a safe and healthful workplace.

During the 1st International Conference on Environmental and Industrial Hygiene, the attendees will have the acknowledge about how to identify, classify, report, and investigate the work incidents and the appropriate corrective action to be taken.

During The conference I will introduce the following) The differences Between Accidents, Incidents, Unsafe Conditions & Acts, Near Miss, Reducing Workplace Incidents and Accidents, Investigating accidents and Incidents, Understanding the language of Investigation, The causes of adverse events, Reducing Risk and Protecting People, Legal reasons for investigating, Incident reporting.
