## Biography:

I have BSC degree in Finance from the George Washington University. I started my career in investment banking, and later moved into real estate. In 2017, I pitched to the Kuwait National Fund to back my project to build Kuwait's first electronic waste recycling facility. Today, we are one of a few companies that work in the field of recycling, and the only one that encompasses a multitude of materials. We now recycle plastics, cardboard/paper, metals, and electronics, all while offering collection and reporting services to companies.
